Laboratory and Pharmacy

Precision Balances

To satisfy requirements for selling cannabis derivatives, edibles and topicals by weight, Rice Lake laboratory balances can weigh precisely to 0.001 gram. Data connectivity for labeling and tracking compliance is available with RS-232, Bluetooth® or USB port.

Retail Shops and Dispensaries

Balances Point of Sale Scales

Rice Lake retail scales are ideal for the point of sale (POS) or retail packaging counters in cannabis storefronts and dispensaries. Legal for Trade scales allow legal selling of products by weight from the scale, for the highest level of accuracy in weight-based transactions. Rice Lake's retail scales have data communication options suitable for tracking, reporting and inventory management, and select models offer additional weight displays for transparency and customer confidence.

Verification and Compliance

CastIron Calibration Weights
Precision Calibration Weights
Leaf Calibration Weights

Rice Lake offers a full line of calibration weights and services required for keeping scales compliant as well as for best practices in sales and quality assurance. With weights available in almost any class, set, size or individual weight, Rice Lake's knowledgeable metrology staff can help with

scale verification need.

Unique Production Needs RESOLVED

For the fastest return on investment in cannabis production facilities, turn to equipment that truly aids profitability—accurate and durable weighing equipment designed for your facility's environment, fully backed by Rice Lake's legendary quality and accessible, comprehensive customer support.
